PROFESSIONAL SUMMARY

I am a passionate and creative Web Developer, specializing in developing dynamic and user-friendly websites. With expertise in WordPress, I have worked extensively with premium themes and plugins to deliver high-quality solutions. Additionally, I am a Machine Learning Engineer, conducting research in computer vision as part of my thesis. My goal is to integrate machine learning with web development to drive innovation and create impactful solutions.

SKILLS

- JavaScript, React, WordPress, MySQL, Python, Html, CSS, Bootstrap, jQuery.
- Machine Learning, Data Mining, Data Structures & Algorithms, OOP, Logic Design, Computer Networking, Software Engineering, Operating System.
